CERTIFICATES

3-Month Industrial Training Certificate – Mountreach Solution Pvt. Ltd.

Aug 2026

- Completed 3 months of practical training in Android and full-stack application development.

Intern of the Month – Mountreach Solution Pvt. Ltd.

Aug 2026

- Completed 3 months of practical training in Android and full-stack application development.

Hackathon Participation Certificate – [Mountreach Solution Pvt. Ltd.]

Aug 2026

- Participated in a hackathon focused on developing innovative technology solutions through teamwork and problem-solving.

PROJECTS

DIGITAL COMPLAINT MANAGER

July 2026

Technologies: Java, XML, PHP, XAMPP, MySQL, JSON, REST APIs, Postman, Git/GitHub

- Developed an Android-based complaint management application with features for complaint submission, tracking, user profile management, and image handling.
- Integrated the Android frontend with a PHP/XAMPP backend using REST APIs and JSON for data storage, retrieval, and management.
- Implemented API testing, image upload/retrieval, profile deletion logic, and an interactive user interface with animations.

VITALYX – HEALTH & HABIT APPLICATION

Aug 2026

Technologies: Java, XML, Firebase, REST APIs, Google Maps, Lottie, Glide

- Developed a health and habit management Android application with an interactive and user-friendly interface.
- Integrated Firebase and REST APIs for backend data handling and implemented Google Maps for location-based functionality.
- Used Lottie animations, Glide image loading, and media features such as a music player to enhance the application experience.

SIGNBRIDGE VISIONX – ASSISTIVE COMMUNICATION APP

Aug 2026

Technologies: Java, XML, PHP, XAMPP, Firebase, REST APIs, JSON, Android Studio

- Developed an assistive Android application designed to support communication for people who are unable to speak.
- Implemented Android UI, backend/API connectivity, data handling, and image-based functionality using Java, XML, PHP, and Firebase.
- Focused on creating an accessible interface with interactive components, animations, and reliable communication between the app and backend.
